16.3 Darwin Presents His Case Flashcards | Quizlet
Lesson Overview Darwin Presents His Case The Struggle for Existence After reading Malthus, Darwin realized that if more individuals are produced than can survive, members of a population must compete to obtain food, living space, and other limited necessities of life. Darwin described this as the struggle for existence.

Chapter 16.3 "Darwin Presents His Case" by Jacob Neff on Prezi

His general ideas about evolution and adaptation influenced Darwin. Thomas Malthus Malthus thought that if the human population continued to grow unchecked, it would run out of living space and food. Darwin realized that this was true of all organisms, not just humans. 16.3 Darwin Presents His Case Evolution by Natural Selection 1.
