Home Made Estes Model Rocket

Here's a photo and video of a test of a homemade model rocket engine, made with 3 seconds of thrust (24 grams of black powder fuel), and 3 seconds of delay fuel (6 grams). Homemade Estes Rocket Engine I now have stock Estes D and E model rocket engines, and homemade motors made with the two different charcoals.

How to Make Estes Model Rocket Engines — Skyllighter, Inc.

Tie a string securely around the rocket tube at the center of gravity leaving a 3 or 4 foot leash. With the rocket prepared for actual launch, swing the rocket around by the leash. An adequately built rocket will "fly" in the circular path you are creating with the nose always pointed in the direction of travel. Else it will wobble, or worse.
