that buildings adapt best when constantly refined and reshaped by their occupants, and that architects can mature from being artists...

How buildings learn : what happens after they're built ...

This book on buildings asks the question why so many buildings punish and restrict us because almost none of them adapt well. In real use, buildings need to adapt because their uses are constantly changing. All buildings are predictions, and yet more high-style buildings are designed not to change, not to accommodate new use. A good portion of how buildings learn will be a natural history of ...
