The academic performance of Grade 12  
learners in Limpopo Province has  
become a yardstick for measuring the  
creativity of our education system, to a  
larger extent; these academic  
performances are also used as a  
yardstick to measure the capability of  
learners to further their studies at  
tertiary institutions.

This study has confirmed some relevant findings from previous studies performed in Limpopo Province that the prevalence rate of substance abuse amongst rural secondary school learners is low. It has also established that most of the learners that abuse substances started during the adolescent stage.
