requirement, AMADA exemplifies the HG ATC Series - the combination of a servo-hydraulic press brake with automatic tool changer.

---

### Servo/Hydraulic Press Brake HG Series - AMADA

Servo press brakes are often referred to as electric hydraulic press brakes due to their technologically advanced electrically powered servo motors. Our servo press brakes are super fast during the pressing cycle resulting in more cycle times per minute allowing you to keep costs low and be as efficient as possible with more bent parts every day.

---

### HG 1003 ATC Press Brake with Automatic Tool Changer

The electro-hydraulic servo press brake is gathering with numerical technology, servo and hydraulic, upper crossbeam through the movement of the control valve to carry out moving up and down periodically, the measure of movement read by the rasters at two sides of the machine. DNC control the hatches of two valves in left and right oil cylinders.

Description - HG ATC pressbrakes with automatic tool ...

CNC Double Servo Pump Controlled Hydraulic Press Brake began to appear in the Chinese market in 2012. It is the latest generation of advanced CNC bending machine for sale. Apart from the relatively high price, there are few disadvantages. Oil-electric hybrid servo LVDCNC press brake has high precision low energy consumption, high efficiency and ...
