A glorious illustrated edition of the international bestseller E. H. Gombrich's Little History of the World, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages.

"The Oxford Illustrated History of World War Two" edited by Richard Overy is a very informative look at almost all aspects of WWII - the chapters on "Unnatural Deaths", "The Culture of War", and "From World War to Cold War" particularly so. I do have some problems with the book however.

Most "illustrated" books that cross my desk are picture (not children's) books with notes accompanying the pictures. This book is a history book with a few pictures, drawings, and charts, provided to support the historical narrative. Much of the narrative focus on the when, who, what, and why, of the events that define human history.

In The Oxford Illustrated History of World War Two a team of leading historians re-assesses the conflict for a new generation, exploring the course of the war not just in terms of the Allied response but also from the viewpoint of the Axis aggressor states. Under Richard Overy's expert editorial guidance, the contributions take us from the ...
